

# Fosroc Primer 7E

Two-part primer primarily for sealants.

## Description

Primer 7E is a two part high performance chemically active, non-toxic liquid for brush application to prime all concrete, stone, brickwork, timber and unglazed edges of ceramic tiles.

## Advantages

- Easy to Apply
- Strong adhesion

## Application

Empty the entire contents of the hardener tin into the base tin, replace base tin lid. Mix thoroughly until a homogeneous dispersion is achieved.

Apply one thin coat using a clean dry brush. Avoid over application of primer causing puddles in the bottom of the joint. The mixed sealant must be applied when the primer becomes tacky but not wet (typically between 5 - 20 minutes after application). If the primer dries, the joint surfaces must be re-primed before applying the sealant.

## Cleaning

Clean equipment immediately after use with Fosroc Solvent 102.

## Estimating

### Supply

Primer 7E:	500 ml can
------------	------------

### Coverage

Primer 7E:	8 -10 m <sup>2</sup> / ltr
------------	----------------------------
